

West Virginia Kids' Health Partnership Bright Idea Application

Contact Name

Organization

Email and Phone

What is your Bright Idea?

How does it bridge gaps between medical care, social supports and systems serving children?

What are the affected systems, and how does it help break down silos in the way we care for kids?

Who are the potential partnering agencies?

Is it realistic, i.e. an achievable goal?

What are the potential costs, and is it fundable?

Do you have a timeframe for implementation?

Please give us a brief synopsis of your idea
